

TANK

c

A STORAGE AND DISTRIBUTION SYSTEM FUELLED BY ClO₂ SPORICIDAL DISINFECTANT CAPSULES

One TANK capsule makes 10 litres of working solution, which can be applied with a Doser, Foamer or Sprayer.

Reduce plastic waste by pairing TANK working solution with any dry wipe.

TANK

ClO₂ SPORICIDAL DISINFECTANT

TANK ClO₂ Sporicidal Disinfectant is built upon the same chlorine dioxide (ClO₂) chemistry as the Tristel Medical Instrument Decontamination products.

TANK ClO₂ Sporicidal Disinfectant capsules incorporate two separate compartments that contain Base Solution (citric acid) and Activator Solution (sodium chlorite). When mixed by bursting the capsule, ClO₂ chemistry is generated for dilution in 10 litres of water. TANK ClO₂ Sporicidal Disinfectant contains a surfactant for added cleaning performance.

Tristel ClO₂ eliminates microorganisms by destroying their molecular structures. This means that harmful microbes cannot build resistance to ClO₂.

Once prepared, the working solution can be stored in TANK for up to 5 days and in a dosing bottle for 24 hours.

SPORICIDAL IN 3 MINUTES & PROVEN EFFECTIVE AGAINST:

- *Bacillus subtilis*
- *Bacillus cereus*
- *Clostridioides difficile*
- Tuberculosis (TB) causing Mycobacteria
- SARS-CoV-2*
- Bloodborne viruses (e.g. Hepatitis B virus and HIV)**
- Norovirus
- MRSA
- CRE
- VRE
- MDRAB
- *Candida auris*
- *Escherichia coli*

Microbiological testing is ongoing. For the latest information please contact validation@tristel.com.

WE PROVIDE THE CHEMISTRY YOU ADD THE WATER

SMALL CAPSULE, BIG IMPACT

One TANK ClO₂ Sporicidal Disinfectant capsule makes 10 litres of sporicidal solution, which is the same as 2,000 sporicidal wipes wetted with 5ml of liquid.

Rather than relying on convenience products which do harm once they are disposed of, TANK uses plastic thoughtfully. The core components are reusable, and all the plastic items within the system are recyclable.

1 x 200ml
TANK CAPSULE

=

20 x 500ml BOTTLES
OF WORKING SOLUTION

1 x 500ml BOTTLE
OF WORKING SOLUTION

=

100 DOSES
WITH THE 5ml DOSER

OR

370 DOSES
WITH THE 1.35ml FOAMER

OR

500 DOSES
WITH THE 1ml SPRAYER

EASY TO USE. BURST, FILL & APPLY

SAVING SPACE

1 PALLET VS 6 LORRIES

You only need 1 pallet of TANK capsules to produce the equivalent of 2 million peracetic acid (PAA) sporicidal wipes.

REDUCING WASTE & EMISSIONS

0.025g VS 12g

TANK capsules require up to 97% less packaging than pre-wetted plastic wipes.

MADE IN THE UK VS MADE IN CHINA

TANK Capsules are filled, sealed, and packed in the UK. To reach NHS Alfreton they only need to travel 134 miles, versus the 12,000 miles required for products manufactured in China.

ANTIMICROBIAL PROTECTION

Biomaster® surface protection is incorporated into each of the TANK labels to reduce bacterial growth. Biomaster is proven to inhibit growth of most types of harmful bacteria, reducing risk of cross-contamination.

ALSO AVAILABLE

TANK DETERGENT

TANK can also be fuelled by Detergent capsules.

JET PRO

JET PRO is a sporicidal chlorine dioxide foam. JET PRO continues to work after application thanks to its unique formulation.

JET

JET is a sporicidal chlorine dioxide foam. Each pull of the trigger targets surfaces where microbes are a risk.

FUSE

Designed for use on floors, FUSE combines cleaning action with the sporicidal power of chlorine dioxide.

WHAT IS THE CACHE COLLECTION?

Cache is a collection of products for the cleaning and sporicidal disinfection of surfaces. The Cache products work together to provide a complete surface disinfection protocol for your hospital.

Our team can offer on-site training, product rollout and audit support for your hospital. Get in touch to find out more.

WE HAVE CHEMISTRY.

*A representative sample of Tristel chlorine dioxide chemistry has been tested in accordance with EN 14476:2013+A2:2019, at a concentration of 20 parts per million (ppm).
TANK ClO₂ Sporicidal Disinfectant has a chlorine dioxide concentration greater than 20ppm at point of use. †Based on virucidal efficacy validated in accordance with EN 14476:2013+A2:2019. Use biocides safely. Always read the label and product information before use.
